EDUCATION

B.Tech in Computer Science and Engineering — National Institute of Technology Karnataka (2021 – 2025)

CGPA: 8.8 / 10.0 • Coursework: Data Structures, Operating Systems, Database Management, Computer Networks

TECHNICAL SKILLS

Languages & Frameworks: Python, JavaScript, TypeScript, FastAPI, React, Node.js, SQL

Databases & Tools: PostgreSQL, SQLite, Redis, Docker, Git, Linux, Postman

PROJECTS

Distributed Task Queue & Scheduler | Python, FastAPI, Redis, Docker

- Designed an asynchronous job worker system handling 1,500 background tasks/sec with retry logic and dead-letter queues.
- Implemented Redis-based token bucket rate limiter preventing upstream third-party API exhaustion.

Campus Placement Ledger | React, TypeScript, Tailwind CSS, SQLite

- Built an end-to-end recruitment tracking dashboard for 400+ final year engineering students.
- Structured relational database schema with automated index tuning for sub-50ms query responses.

EXPERIENCE

Software Engineering Intern — TechVanguard Solutions, Bengaluru (May 2024 – Jul 2024)

- Engineered RESTful microservice endpoints in FastAPI for internal student assessment evaluations.
- Reduced average database response latency by 28% through targeted PostgreSQL index optimizations and connection pooling.

TARGET ROLES & INTERESTS

Backend Engineering Intern, Junior Software Engineer, Full Stack Developer. Open to Bengaluru, Hyderabad, Pune, and Remote.
